1) Why is ***MySpace*** a teenage craze in society today?

2) Why do so many young people fabricate their character or identity on their ***MySpace*** Page?

3) Our key verse today talks about "not being like people of the world" (**conforming)** but "letting God change us" (**transforming)**. When you look at your Myspace Page (or examine your identity) is it evident that you have been "***transformed***" by God or are you still "***conforming***" to the world?

4) Would you extend a personal invitation to God to look at your MySpace page? Would you give him a personal tour? Why or why not? Explain.
